- > Above is the sample web page for all product pages
- > notify means **add to cart**
- >**Hold options use to hold the product for specific time that buyer wants to (1 week or 1 month etc.,). This option include some taxes based on hold time of product . we can hold that product for that buyer with out selling product to the another buyer until hold time endup.**

-cart page

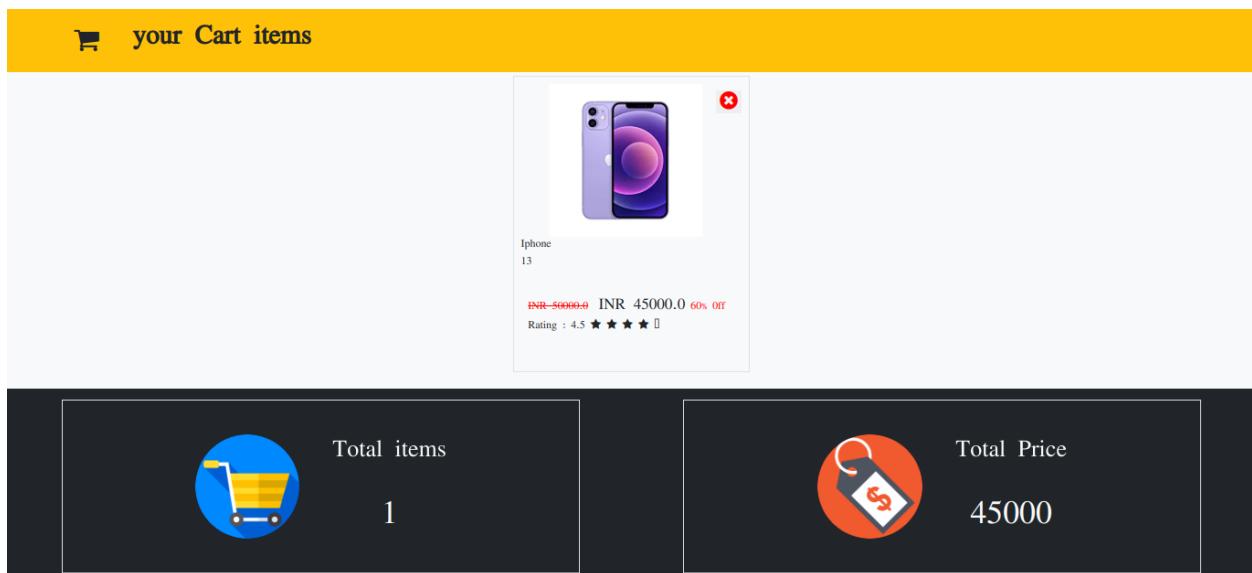

Before adding products

The screenshot shows the Pic Ur Things mobile application interface. At the top, there is a blue header bar with the app's logo "Pic Ur Things". Below the header is a yellow navigation bar with a shopping cart icon and the text "your Cart items". The main content area has a white background with a centered message "your cart is empty" and a blue "Shop now" button below it. At the bottom, there are two dark grey rectangular boxes: one on the left showing a shopping cart icon and "Total items 0", and one on the right showing a price tag icon and "Total Price 0".

After adding products

The screenshot shows the same mobile application after adding three items to the cart. The yellow navigation bar now displays "3 items" in the cart icon. The main content area shows a grid of three smartphone products: "Iphone 13" (purple), "Motorola Edge30" (black), and "One plus 11R" (blue). Each product card includes an "X" icon in the top right corner. Below each card, there is a small image of the phone, its name, a price tag showing a discount (e.g., INR 45000.0 60% off), and its rating (e.g., Rating : 4.5 ★★★★□). At the bottom, there are two dark grey rectangular boxes: one on the left showing a shopping cart icon and "Total items 3", and one on the right showing a price tag icon and "Total Price 82000".

## Removing products from cart ( onclick red x-symbol)
